Andrii Prykhodko

London, ON, Canada

E-mail: acdne@icloud.com

I am a highly motivated, ambitious, and skilled student at Western University in Ontario. With my strong organizational skills and focused approach, I consistently deliver outstanding results. I approach challenges as opportunities to play and win, and my passion for engineering fields drives me to make project goals my own personal aspirations.

Experiences:

- Designed robots and controllers using Webots software
- Programmed controllers and neural networks using Python
- Created parts, sheets, and molds in Solidworks
- Participated in robotics club teams, such as WeMars (mars rover) and Webots (autonomous walking robot)

Education:

- Specialized Secondary School No. 86, Odesa, Ukraine (2007-2017)
- Odessa Nautical College of the Fishing Industry named after A. Solyanika, Odesa, Ukraine (2017-2021) Junior Specialist Diploma (Marine Navigation Officer)
- Currently in my first year of Engineering at Western University, London, ON, Canada

Working Experience:

- Porter at Hotel Palace-Del-Mar, Odesa, Ukraine (May 2020 – September 2020) - Greeting guests, assisting with luggage, and delivering orders
- Deck Cadet on Costa Diadema cruise vessel, Mediterranean Sea (September 2020 – April 2021) - Handling office paperwork, monitoring crew sign-in/sign-out, conducting tanks checks, and studying navigational officer duties
- Deck Cadet on AS Ragna, Mediterranean Sea (October 2021 – May 2022) - Performing deck and cargo watches, assisting with navigational duties, conducting general duties, and participating in mooring operations

Hobbies:

- Coding control systems and implementing them
- Building fun circuits at home
- AI
- Playing video games
- Socializing with friends.
